

PAR Task powered by SureCheck.
Where technology drives results.

Easy-to-use digital task management software designed to enforce operational compliance to **keep your business running smoothly & efficiently.**

Restaurants and food retailers are required by law and regulation to maintain detailed checklist logs. Preventative maintenance is key to running a high functioning and safe operation.

PAR Task is an simple digital task management system that:

- Conducts daily, weekly, monthly required tasks right from your mobile device.
- Records and stores all task observations within the PAR cloud for anytime access.
- Offers robust reporting for review of checklist completion by management.

PAR Task allows flexibility to schedule and assign the right tasks to the right team member:

- Maintain Standard Operating Procedure (SOPs)
- Business Tasks
- Preventative Maintenance
- Sanitation & Facility Tasks
