

RESTAURANT  
**REVOLUTION**  
TECHNOLOGIES

## **TRUE** *partnership*

### **COLLABORATE**

Collaborate to continually define and communicate priorities, systems and other needs.

### **INNOVATE**

Innovate platform features, integrations, data management and live services for optimal results.

### **DOMINATE!**

Dominate and own the off-premise segment by capturing 100% of the off-premise opportunity.

# Grow Your Brand by Implementing the Leading Direct-to-Customer **Off-Premise Ordering Solution.**

**Order One**, Revolution's unified omni-channel ordering platform, offers the most extensive feature set in the restaurant industry. Order One includes a seamless integration with Brink POS forging a partnership that's not just an alternative but the perfect complement to your restaurant operation.

Beyond Order One, at Revolution our merchant-first spirit is unmatched and exhibited through our willingness to prioritize and develop new platform features and key application integrations. Our client services team supports and assists every client from the first day of implementation through the life of the client partnership. That's our revolutionary difference as the off-premise partner for restaurants.
